La fingerfoodmania impazza! Grazie a Gold Plast, la più completa e raffinata collezione di soluzioni dedicate al Finger Food che il mercato oggi può offrire, si arricchisce di una nuova linea: Les Chics Double Use.

Il materiale polipropilenico di qualità superiore veste con forme dal design raffinato dei contenitori dalla massima praticità: le diverse preparazioni possono essere realizzate, conservate fino a -20°, riscaldate fino a +80° e servite direttamente, per essere presentate e consumate soddisfando il gusto del palato ma anche della migliore estetica.

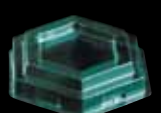

*Fingerfoodmania is going crazy! Thanks to Gold Plast, the most elegant and complete collection of Finger Food containers on the market today, is further enhanced by a new line: Les Chics Double Use.*

*The high quality polypropylene produces an aesthetically striking range of containers that are highly practical in use: different food can be prepared, frozen at -20°, heated at +80° and then served directly, satisfying both the taste buds and the eye.*

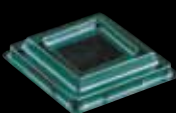

Per i prodotti Double Use sono disponibili coperchi in PP che proteggono il contenuto e rendono i contenitori impilabili, utilizzabili in congelatore ed in forno a microonde.

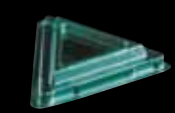

The products in the Double Use Collections come with PP covers, which protect the contents and make the containers stackable and able to be used in freezer and microwave oven
